

Rent your compressor, maintenance included

Screw compressors from 5.5 to 37 kW, delivered within 24 h anywhere in France. A fixed fee that covers the machine, its commissioning and its maintenance: you know your compressed-air budget from the day you sign.

Delivered within 24 h

The compressor can be on your site the next day.

Fixed fee

The same amount every month, maintenance included.

Response within 24 h

Anywhere in France, a suitable solution if anything goes wrong.

WhatsApp 24/7

A dedicated line for industrial customers, day and night.

Services included

Everything your rental includes

Tailored sizing

We choose the machine and its pressure from your actual air consumption: neither too small nor oversized.

Delivery within 24 h

The compressor can be delivered to your site within 24 h, anywhere in France.

Commissioning

Connection, first start-up and handover to your team.

Scheduled maintenance

Servicing at 500 hours, then every 1,500 hours, parts and labour included: filters, oil, separator.

Response within 24 h

If anything goes wrong, we come on site or offer a suitable solution within 24 h, anywhere in France.

WhatsApp emergency line

For industrial customers, a line that answers 24 hours a day, 7 days a week on WhatsApp.

New or overhauled machines

Every compressor is checked and serviced before each rental.

Air equipment

Air receiver, refrigerated dryer and filtration can be included in the contract.

The term, the planned operating hours and the options are set out in your written offer.

The machines

Compressors available for rent

Screw compressors from 5.5 to 37 kW: S, K (4-in-1), L (16 bar, laser cutting) and M (mobile) series. Machines are new or overhauled, and checked before each rental.

Who is it for?

- Garages, body shops and paint shops
- Joinery and manufacturing workshops
- Industry, production and laser cutting
- Companies starting out or wanting to preserve their cash

Rent or buy

Why rent your compressor

A controlled budget

A fixed fee, known when you sign, maintenance included. No unexpected servicing bills.

Clear prices

A written offer listing the machine, the fee and everything included. No hidden costs.

Machines available

Compressors from 5.5 to 37 kW ready to go, delivered within 24 h.

Maintenance contract included

Servicing is scheduled and done on time: the machine lasts longer and uses less energy.

Business contracts

Contracts designed for businesses

Long term

Equip a workshop or a production line without investing: the machine and its maintenance for the whole contract.

Short term

For a project, a peak in activity or seasonal production.

Breakdown cover

Replace a stopped compressor while it is repaired, delivered within 24 h.

Multiple sites

A single contract to equip several workshops or plants across France.

How it works

Your rental in 4 steps

1. Your needs

Your tools, working hours and required pressure: a few details are enough.

2. Our proposal

A written offer: the machine, the monthly fee and everything included.

3. Installation

Delivery, connection and commissioning on your site.

4. Ongoing maintenance

Servicing is scheduled throughout the contract, with nothing for you to arrange.

Industrial emergency line

A problem? We answer 24/7 on WhatsApp

A dedicated line for industrial customers, day and night, 7 days a week. Send a message or a photo of the machine: we come on site or offer a suitable solution within 24 h, anywhere in France.
